

INTRODUCING

# THE MOSAIC COLLECTIVE

three divisions, one purpose:  
*connecting people to change the conversation*

MOSAIC stands for Mentoring Opportunities Shared Amongst In-House Counsel and this is how The Collective started life.

The MOSAIC Collective has three divisions: all designed to meet the needs of the legal profession. As senior lawyers who have practised in-house for many years and have lived and worked abroad, we understand the challenges the profession faces.

*Claire & Emma*

Founders

Our consulting division works with clients to deliver transformation projects and advise on strategy. Our particular focus is on people. We specialise in designing and delivering coaching for individuals or teams through Lumina Spark or Gallup Strengths assessments.

We believe that learning, collaboration and meaningful conversations are key to personal growth and career development. We design and deliver learning programs from short courses to leadership academies in partnership with experienced faculty from around the world. These programs are different as there is nothing else out there like this. Truly intentional. Focused. Curated to unleash your potential.

The global mentoring program powered by smart technology for in-house legal professionals wherever you are in the world. 12-month subscription per mentee. Free to mentors. Discounted rates for mentees who also sign up as a mentor. We create and run bespoke mentoring programs for organisations, for your event or your group.
